DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-33 and 46-49, drawn to a method and an apparatus for remote monitoring physiological parameters from a remote monitoring device, classified in class 600, subclass 300.
 - II. Claims 34-45 and 50-51, drawn to method and apparatus for a business method, classified in class 705, subclass 001.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I and II are related as subcombination and combination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because the method(s) and apparatus do not use a physiological monitoring device. The subcombination has separate utility such as a blood pressure or heart rate monitor.
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
4. A telephone call was made to Jay Walker on 10/1/02 to request an oral election to the above restriction requirement, but did not result in an election being made.

Art Unit: 3736

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
